Pursuant to 37 C.F.R. §§ 1.56 and 1.97(b), Applicants bring to the attention of the Examiner the documents listed on the attached Form PTO-1449. This Information Disclosure Statement is being filed within three months of the filing date of the above-referenced application.

Search Report, and a copy of the International Preliminary Examination Report, for the Examiner's convenience.

Applicants note that FR 2 753 639 A1 is written in French and that a translation is not provided. However, the Annex to the International Search Report indicates that PCT publication WO 98/13136, published April 2, 1998, is a family member. PCT publication WO 98/13136 is based on PCT/FR97/01674, from which U.S. Patent No. 6,183,783 issued from the U.S. national stage application. Thus, in lieu of a translation, Applicants are providing U.S. Patent No. 6,183,783.

In addition, Applicants have also listed on the Form PTO-1449, PCT publication WO 01/15799 A1, published March 8, 2001, which is written in French and based on PCT/FR00/02376, filed August 25, 2000. In lieu of a translation, Applicants submit herewith a copy of U.S. Application Serial No. 10/069,405, filed February 26, 2002, which is the U.S. national stage application, filed under 35 U.S.C. § 371, of PCT/FR00/02376.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such documents.
